

On Wednesday 4 May 7 ramblers did a 6.5 mile circular walk from Odiham canal car park taking in a couple of lakes and a homeward stretch along Basingstoke canal. The weather was kind and we enjoyed a pleasant spring walk. Fun facts:the canal takes a wide loop round Dogmersfield park as the laws at the time protected country estates from canal builders. It is also rumoured that Dogmersfield village was originally where Tundry pond is now but was moved brick by brick to improve the view!
